1. Title: Education

2. Sources:
    (a) Creator: J. Savoy
    (b) Date: January, 2015

3. Relevant Information:
   --- This is a dataset for exercises using R
   Create for a simple dataset for manipulating the data
   and applying regression (simple)

4. Number of Instances: 500

5. Number of Attributes: 4, 3 numeric, 1 factor (gender)

6. Attribute Information:
    1. ID   identification code of the corresponding observations
    2. Education   number of years in education
    3. Gender   1 = male, 2 = female
    4. Wage   wage per month (in CHF) of the corresponding person
    5. Country   US or Canada where the corresponding record come from

7. Missing Attribute Values: None
